4. PINLOCK (ANTI FOG LENS) *

This **NHK GT Avenger** series equipped with Pinlock Pin on the visor. You can add and install your NHK Pinlock® 70 lens. Pinlock® 70 lens is made from a moisture absorbing plastic. The Pinlock® lens fits exactly into the dedicated recess in the helmet shield and provides you with a maximized free field of view. The silicon seal on the Pinlock® lens creates an insulating air pocket between the Pinlock® lens and the helmet shield. The pins, between which the Pinlock® lens is to be fitted, are eccentric, which means that the axis of the pin is not precisely in the center. This enables you to increase or decrease the tension on the Pinlock® lens by turning the pins, allowing the silicone seal to have a perfect fit. Please notice! The Pinlock® lens is less resistant to scratching than the helmet shield!

5. RETENTION SYSTEM (CHINSTRAP) *

• Double D Ring Strap

How To Fasten :

- Slot the tape through the two rings
- Pull the end of the tape until the strap pressed against the jaw
- Fasten the anti flapping press stud and then check that the helmet fits snugly

How To Release :

To release the helmet, unfasten the press stud by pulling on the end of the tape and loosen the tape by sliding it through the rings, using the red tab.

• Micromatic Buckle Strap :

- To fasten the strap, push the long tongue firmly into the buckle until it locks with a click. Pull chinstrap tight against your throat and the end of chinstrap ladder to secure it.
- To release the chinstrap, lift up the red lever and then release the lock.

6. NHK HELMET INNER LINING

With the comfort inner lining system, we bring you a completely new development in regards to; noise reduction, ventilation, and fitment. The innovative soft mesh material forms around the curves of your head, this way the material does not only feels soft on your skin but also stays firmly placed. To clean you interior padding, use only mild soap and water to wash you interior of your helmet. Never allow your helmet to come in contact high chemical liquid. Do not use washing machine and hot water to clean and wash.

• CHEEK PADS & CROWN PAD

Sometimes some part of helmet inner lining may require removal for washing or replacement.

How To Remove Cheek Pads :

- Put your fingers behind the cheek pads
- Gently tug the cheek pads away from the helmet interior wall
- There are 3 snaps that require unsnapping. At the same time slide the plastic trim out the helmet grip
- Do the same on the other side

How To Remove Crown Pad :

- Remove the cheek pads, and chin guard first
- From the back side of the helmet, pull the crown pad away from the shell
- Then pull the crown pad out of the helmet gently

How To Install Cheek Pads and Crown Pad :

- To re-install cheek pads and crown pad please reverse this process.

WARNING!

No helmet can protect the user from all possible and foreseeable impacts. However, for adequate protection, this NHK helmet must fit closely and the retention system must be securely attached. The helmet shall not easily removed when its fitted and fastened. Do not apply paint, substances and any other solvent to this helmet. Helmet can be seriously damaged. To maintain full efficiency of the helmet, please do not make any modification on helmet parts and structure. If the helmet has experience a severe impact the helmet should be replaced.
